

Report (170/200)

- Different options for each component (UI/frontend, logic/backend, database) were listed and a comparison of the pros and cons were made for each of them.
- A logical flow was presented to make design choices.
- Would be nicer if some references were added when making certain claims.

Deployed Application (490/600)

1 - The application is functional (160/200)

- Basic functionality is working fine (e.g. adding items, summing the total amount, and applying tax).

2 - The application's UI is present and usable (170/200)

- A simple UI is built and the UI is cohesive and clear.
- The UI is able to adapt to different devices (desktop, phones and tablets).

3 - Testing infrastructure implemented (160/200)

- A basic testing infrastructure is implemented.

Testing Availability (165/200)

1 - The application is deployed (80 /100)

- A link is provided for testing.

2 - Instructions for testing are provided (85/100)

- Instructions were provided for running unit tests.
- Project structure was listed.

Total: $170/200 * 20\% + 490/600 * 60\% + 165/200 * 20\% = 82.5\%$
